Why events with Goodlife?

01

They've been part of our DNA since Ian Gray founded the company in 2015.

This is a great opportunity to apply our missions of creativity and innovation.

It's a chance and a pleasure to be able to reach out directly to coffee lovers and share our passion for specialty coffee.

We have become experts in creating customized experiences around specialty coffee: Goodlife moments.

Who is this offer for?

Whether you are: Private client, event agency, brand, office, company, restaurant, hotel.

Whatever the nature of your project, the occasion and the number of people:

We have the experience, we know how to adapt and have a personalized solution for you. We take care of all the organization, logistics, technique and material around the coffee service.

The Goodlife menus

02

HOT

 Espresso

 Double Espresso

 Long Black

 Cookie

 Banana Bread

We are experts in serving all beverages around specialty coffee and can discuss a custom menu that we can design and print for you with pleasure.

We can also offer fresh pastries and beverages with our local and artisanal partners.

Our different packages

03

We cater to all your needs, from barista services to the entire coffee experience from A to Z.

Barista Service

You only need one or more head baristas for your event?

Our team of head baristas have been carefully selected and trained in our service standards and will delight your guests with their specialty coffee storytelling, expertise, professionalism and good vibes.

They will know how to set up your coffee machine directly for our beans and apply the best recipes worthy of the best international coffee shops.

Barista Service + Machine Professional

Do you need a high quality professional machine in addition to head baristas?

We will guide you on the choice of the machine, we will take care of the delivery to the place of the event as well as the setting up and adjustment at the desired location.

Barista Service + Machine Professional + Stand or Tuktuk

Do you want to offer a friendly, visual and unique experience to your guests?

Choose our signature: our Goodlife tuktuk which is always a great success on small and large events. It is in itself a place of service and meeting, a real attraction.

Depending on your needs and requirements, we can offer you an alternative to our tuktuk: a personalized mobile stand.

Automatic machine service and specialty coffee

Do you need a quick, quality and ethical self-service coffee break for your event?

We offer you the rental of a "bean to cup" machine and our specialty coffee.

We take care of its installation on the defined place.

Workshops / Tastings

Do you want to organize a workshop for your clients, a team building activity for your employees, or have fun with your loved ones?

Goodlife workshops and tastings are a great option. We can create a tailor-made experience together.

Examples of workshops: tasting during a breakfast event in the workplace, introduction to filter or espresso extraction methods, masterclass on specialty coffee...

Espresso martini bartender

Want to offer the best espresso martinis at your events?

We have developed a recipe with our partner Belvedere vodka around the best ingredients and process for this delicious and trendy cocktail that will make a difference.

We offer the espresso martini shaken by our bartenders or the nitro cold brew martini with our nitro tap. The Nitro Tap allows a faster service and a different and tasty cocktail.

In a few words, why choose Goodlife for your events?

7 years of experience in event management

A multidisciplinary team of experts in specialty coffee, hospitality, events and design

A 360 degree expertise around coffee: The roaster's work, the barista's recipes, the selection and the settings of the best equipment as well as the service sense

Various clients always satisfied (luxury brands, business schools, food festivals, medical conferences, weddings, event agencies)

A follow-up, a strength of proposal and a personalization from A to Z

Turnkey service, you delegate us all the aspects around the coffee and more

Established credibility in the challenging world of specialty coffee and a strong community and brand image

A local and artisanal team

A mode of consumption and a product of sustainable development
